The Norfolk Remembers project was established to encourage all citizens of Norfolk County to reflect upon the lives of men and women who have served in our armed forces and to remember those who died in service during WW1. The Committee wishes to acknowledge the late Jeanne Hornby for her dedicated work in transcribing all the newspaper articles in the five County papers from 1914 to 1919; to Robin Dickson for researching attestation papers, obituaries and cataloguing their photos; and to Grant Smith for providing background information and editing their letters. Special thanks to the Lions Clubs of Norfolk for sponsoring the printing of the book, Norfolk Remembers the Great War 1914-1918.
